

RESEARCH PAPER 03/04
15 JANUARY 2003

Unemployment by Constituency, December 2002

This paper shows the number of people claiming Jobseeker's Allowance recorded as resident in each constituency in the United Kingdom in December 2002, together with comparisons with the levels in December 2001 and December 1997. This paper also presents residence-based unemployment rates not published elsewhere for all 659 constituencies in the United Kingdom.

The Office for National Statistics (ONS) have withdrawn their workforce-based unemployment rates for parliamentary constituencies. ONS intend to publish new residence-based rates for constituencies, probably later this year. For the time being, these changes will not affect the Library's Research Paper, *Unemployment by Constituency*, which will continue to use residence-based rates. **The Library is hosting a seminar for Members and their staff at 4.15pm on Tuesday, 4 February in Committee Room 15 at which ONS will explain these changes. For further information, contact Dominic Webb on extension 2464.**

Library Research Papers are compiled for the benefit of Members of Parliament and their personal staff. Authors are available to discuss the contents of these papers with Members and their staff but cannot advise members of the general public. Any comments on Research papers should be sent to the Research Publications Officer, Room 407, 1 Derby Gate, London, SW1A 2DG or e-mailed to PAPERS@parliament.uk.

Summary of main points

This Research Paper summarises data for UK parliamentary constituencies from the monthly count of Jobseeker's Allowance (JSA) claimants. It includes rates showing the number of JSA claimants as a proportion of the estimated economically active population in each constituency in 1997. It also includes changes in the number of JSA claimants compared with one and five years earlier. Please see Research Paper 00/29, *Unemployment by constituency: Revised rates*, for details.

Data for the current constituencies are not available before January 1996.

The political parties shown against each seat are as they stand currently.

I Introduction

The Office for National Statistics (ONS) have announced a relabelling of unemployment statistics. The official measure of unemployment is the International Labour Organisation (ILO) definition. Figures for constituencies are not, however, available on this basis. For the purposes of this paper, unemployment refers to the number of Jobseeker's Allowance claimants resident in the constituency and the unemployment rate expresses this number of a percentage of the estimated economically active population resident in the constituency in 1997. This re-labelling of unemployment statistics does not affect the methodology used to calculate the figures in this paper.

The rates presented here should be regarded more as a social measure of relative deprivation than as an economic measure of the mismatch between the supply of and demand for labour, as they take no account of people's ability to seek work outside the constituency in which they live. For a full exposition of the methodology used to calculate these rates see Research Paper 96/63, *New Unemployment Rates for Parliamentary Constituencies*.

Until June 1999, ONS did not publish unemployment rates for parliamentary constituencies since most do not approximate to self-contained labour markets.¹ Following local government reorganisation, ONS decided to publish unemployment rates for all unitary authorities, even though some of these do not meet the normal self-containment criteria. From 16 June 1999, they have published official unemployment rates for all constituencies. Following a review of labour market statistics, ONS have decided to withdraw their unemployment rates for parliamentary constituencies from January 2003. They plan to introduce a residence-based measure for constituencies in the second half of 2003.

Notes to tables:

1. The Boundary Commission reviews in 1995 defined 659 constituencies in the United Kingdom. These were defined in terms of electoral wards as they stood at the time of the review. For the purposes of the unemployment statistics however, constituencies represent a best-fit of frozen 1991 wards to the new constituencies.

Boundary alterations between 1991 and 1995 mean that there are inevitably approximations to 1995 boundaries in many constituencies. In some cases, however, the changes to ward boundaries were substantial and some wards are now split between constituencies. These constituencies are indicated with an asterisk (*) in the following tables.

Four wards with populations below the 1991 Census confidentiality threshold have had their data 'exported' to a ward which is in another constituency. In these cases, the data for the 'exported' ward are included in the constituency to which the ward has been transferred. Constituencies losing data in this way are indicated by '>', whereas those gaining data as a result are indicated by '<'.²

¹ Self contained labour markets are areas where the 70 per cent of the people who live in the area also work there, and 70 per cent of those who work in the area also live there.

² Data are transferred from Bath to Wansdyke (one ward), Hereford to Leominster (one ward) and Clywd South to Clwyd West (two wards).

2. The following abbreviations for parties have been used:

LAB	Labour	UU	Ulster Unionist Party
CON	Conservative	DU	Democratic Unionist Party
LD	Liberal Democrat	SDLP	Social Democratic and Labour Party
PC	Plaid Cymru	SF	Sinn Fein
SNP	Scottish National Party	IND	Independent
SPKR	Speaker	IC	Independent Conservative
VAC	Vacant
