

Local elections 2012

RESEARCH PAPER 12/27 21 May 2012

Local elections took place in 181 local authorities on 3 May 2012. Almost 4,900 council seats were up for election in 128 local authorities in England, 32 unitary authorities in Scotland and 21 unitary authorities in Wales.

Labour made net gains of 32 councils and over 800 council seats. The Conservatives had a net loss of twelve councils and 400 seats. The Liberal Democrats had a net loss of more than 300 seats and one council.

Labour won 39% of the national equivalent share of the vote, compared to 33% for the Conservatives and 15% for the Liberal Democrats. Turnout was estimated to be 32%.

There were inaugural mayoral elections in Liverpool and Salford. Ten cities held referendums on whether to introduce directly elected mayors, with only Bristol voting in favour. In Doncaster, voters decided to retain the office of mayor in a referendum on whether the mayoral system should continue.

Summary

Elections were held on 3 May 2011 to 4,900 seats in 128 local authorities in England, all 32 unitary authorities in Scotland and 21 unitary authorities in Wales.

Labour won or retained control of 75 councils, a net gain of 32. Labour won control of six councils from the Conservatives (Dudley, Great Yarmouth, Harlow, Plymouth, Redditch and Southampton) and two Welsh councils from Independents (Blaenau Gwent and Merthyr Tydfil). They won 25 councils from no overall control (NOC), but lost overall control of Midlothian. Labour gained 823 seats in net terms.

The Conservatives won or retained control of 42 councils, a net loss of twelve. The party lost seven councils to no overall control and six to Labour, but gained Winchester from no overall control. The Conservatives had a net loss of 403 seats.

The Liberal Democrats retained control of six councils but lost Cambridge to no overall control. The party lost 330 seats in net terms.

The estimated national equivalent share of the vote for Labour was 39%, compared to 33% for the Conservatives and 15% for the Liberal Democrats. Turnout was projected to be 32%.

Ten cities held referendums on whether to change the council leadership system to have an elected mayor. Bristol was the only city to vote in favour of an elected mayor. A referendum was also held in Doncaster on whether to abolish the office of mayor, but voters chose to keep the mayoral system.

Liverpool and Salford held their first ever elections for new directly-elected mayors. The Labour candidate was successful in both cities: Joe Anderson was elected in Liverpool and Ian Stewart in Salford.

Elections for the Mayor of London and London Assembly were also held on 3 May 2012. The Conservative candidate Boris Johnson was re-elected as Mayor while Labour became the largest party in the London Assembly, winning 12 of the 25 seats. The London elections are analysed in detail in Library Research Paper RP12/28 [London Elections 2012](#).

1 Introduction

Members of councils - councillors - are elected for terms of four years. There are a variety of electoral cycles (times when elections are held) so not all councillors are elected at the same time. In some authorities, including London boroughs and all county councils, elections are held every four years. Others elect a proportion of members each year. In England and Wales, councillors are elected using the First Past the Post system, while in Scotland the Single Transferrable Vote (STV) system is used.

There are three methods of holding elections to local councils: by whole council; by thirds; and by halves.

- *By whole*: All councillors are elected once every four years, in whole council elections.
- *By thirds*: At each election, a third of the councillors are elected. Elections are held every year except in years when there are county council elections in the rest of England.
- *By halves*: At each election, half of the councillors are elected. Elections are held every two years.

Elections were held to 4,900 seats in 181 local authorities in England, Scotland and Wales on 3 May 2012, comprising:

- 36 metropolitan borough councils (one third of seats)
- 18 English unitary authorities: one third of seats in 16 councils and all seats in 2 councils
- 74 shire district councils: one third of seats in 63 councils; half of seats in 7 councils; and all seats in 4 councils
- 32 Scottish unitary authorities (all seats)
- 21 Welsh unitary authorities (all seats)

In Wales all authorities held elections except the Isle of Anglesey, where elections have been postponed until 2013 pending a review of electoral arrangements at the council; in the meantime the council is being run by commissioners.

This paper is intended as a provisional summary of the results. It is based on media reports, data supplied by the BBC's Political Research Unit and local authorities. The compilation of the final results, including votes cast at ward- and authority-level, shares of the vote, and turnout will be published later in the year by Professors Rallings and Thrasher of the University of Plymouth in their *Local Elections Handbook 2012*.

Comparisons of net gains and losses are based on council composition immediately prior to the elections. Council control is attributed on a simple numerical basis – minority administrations and coalitions are not taken into account; they are regarded as the authority being under no overall (single party) control (NOC).

2 Results of council elections

2.1 Council control

Labour won or retained control of 75 councils, a net gain of 32. In England, Labour made six gains from the Conservatives: Dudley metropolitan borough council; Great Yarmouth, Harlow and Redditch shire district councils; and Plymouth and Southampton unitary authorities. The party also gained sixteen councils from NOC. In Wales, Labour gained six councils from NOC and gained Blaenau Gwent and Merthyr Tydfil unitary authorities from Independents; Labour now controls ten councils in Wales. They made three gains from NOC in Scotland (Glasgow, Renfrewshire and West Dunbartonshire) but lost Midlothian to NOC.

The **Conservatives** won or retained control of 42 councils, a net loss of twelve. The party gained Winchester from NOC but lost six councils to Labour and seven to NOC: Gloucester; Hart; Southend-on-Sea; Worcester and Wyre Forest, as well as Monmouthshire and Vale of Glamorgan in Wales.

The **Liberal Democrats** retained control of six councils. Cambridge was lost to NOC but the Liberal Democrats remain the largest party on the council. The party lost 333 councillors in net terms, including half of council seats in Wales and Scotland.

The **Scottish National Party** won control of two councils, Angus and Dundee. The party did not control any councils prior to the elections. The SNP won the most council seats of any party in Scotland. In Wales, **Plaid Cymru** lost Gwynedd to NOC and lost 41 seats in net terms.

The **Green Party** won or retained 40 seats, a net gain of ten. Nine councillors were elected for the **UK Independence Party** (UKIP), but the party did not make a net gain in seats.

Source: BBC

Labour won or retained 2,158 seats, 44% of those contested and a net gain of 823 seats. The party gained 263 seats in net terms on metropolitan borough councils, including 13 seats in Dudley to win the council from the Conservatives and 20 in Birmingham to gain the council from NOC. Labour won 577 of the 1,223 Welsh council seats up for election, a net gain of 232. The party now controls ten Welsh unitary authorities, compared to two immediately before the election.

The Conservatives won or retained just over 1,000 seats, or one in five of those contested. This represented a net loss of 403 seats. The party lost 129 seats in net terms across metropolitan boroughs and continues to be without representation on six metropolitan borough councils (Gateshead, Knowsley, Liverpool, Manchester, Newcastle-upon-Tyne and Sheffield). In shire districts the Conservatives had a net loss of 141 seats, but won overall control of Winchester. On Welsh councils where there had been a significant Conservative presence prior to the election, the party incurred heavy losses including the loss of more than half its seats in Cardiff and Vale of Glamorgan. The Conservatives remain the largest party in Monmouthshire despite losing overall control of the council.

The Liberal Democrats won or retained 431 seats, a net loss of 333. They lost about half their councillors in Wales and Scotland, including net losses of 18 councillors in Cardiff and 13 councillors in Edinburgh where they had been the largest party before the elections. The party lost more than 100 seats in metropolitan boroughs, including heavy losses in Manchester, Liverpool and Sheffield for the second year running.

In Scotland, the SNP won 424 council seats, a net gain of 57, and gained overall control in Angus and Dundee. Labour won 394 seats, a net gain of 58, but controls four councils.

Most of the seats contested in 2012 had been last up for election in 2008, when the Conservatives performed very strongly with net gains of 257 seats and 12 councils. Labour on the other hand lost 334 seats and nine councils in net terms.

3 National equivalent share of the vote

The estimated share of the vote each party would have received had elections been held across the whole of Great Britain is 39% for Labour, 33% for the Conservatives and 15% for the Liberal Democrats.¹ Trends are shown in the table and chart below. Where general elections were held simultaneously, the general election vote share is used.

Source: Rallings & Thrasher, *Local Government Chronicle*, 10 May 2012

The **Conservatives** have 9,000 councillors, 44% of the Great Britain total. The fall in Conservative councillor numbers at this year's local elections follows on from a small increase last year. Conservative councillor numbers peaked in 1978 when half of all councillors were Conservative, before falling during the party's time in government from 1979 to 1997. Numbers rose consistently between 1997, when the Conservatives held 20% of council seats in Great Britain, and 2008 by which time their proportion stood at 44%. The Conservatives control 190 councils, 47% of authorities in Great Britain, including 26 out of 27 county councils and just under two thirds of shire districts. The party controls no councils in Scotland and, following the loss of Vale of Glamorgan and Monmouthshire to NOC, controls no councils in Wales.

Labour has almost 6,600 councillors, 32% of the Great Britain total. The number of Labour councillors fell consistently from the mid-1990s to a low of 4,400 in 2009, but since then the party has been gaining council seats. Labour has about the same number of councillors now as it did following the 2005 local elections. Labour controls 114 councils, 28% of the total. They control 81% of metropolitan boroughs and just over half (53%) of London boroughs, but only 15% of shire districts. There are currently no county councils under Labour control.

The **Liberal Democrats** have just over 2,700 councillors, 13% of the Great Britain total. The four hundred council seats lost in 2012 follows on from the loss of more than eight hundred seats in 2011, and for the first time since the creation of the Liberal Democrats, the party has fewer than 3,000 councillors. Liberal Democrat councillor numbers peaked at over 5,000 in 1996, having been slowly increasing since 1978. Between 1997 and 2010 the proportion of council seats held by the party was relatively stable. The Liberal Democrats control 12 councils, 3% of the total number. Two London boroughs, one unitary authority and nine shire districts are under Liberal Democrat control.

5 Mayoral elections

Inaugural mayoral elections were held in Liverpool and Salford.

- In Liverpool, Labour candidate and former council leader Joe Anderson was elected with a majority of first preference votes. 59% of voters selected him as their first choice, giving him a majority of 51% of the vote over his nearest challenger.
- Labour candidate Ian Stewart was elected in Salford after second preference votes were redistributed. He won 46% of first preference votes. Ian Stewart was MP for Eccles between 1997 and 2010, when his constituency was abolished.

6 Mayoral referendums

Ten cities held referendums on whether to change their council leadership model to have a directly elected mayor. Only one city, Bristol, voted in favour. The other cities were Birmingham, Bradford, Coventry, Leeds, Manchester, Newcastle-upon-Tyne, Nottingham, Sheffield and Wakefield.

In Doncaster, a referendum was held on whether the office of directly elected mayor should continue. Voters decided to retain the mayoral system.

Turnout in the referendums ranged from 35.2% in Bradford to 23.8% in Nottingham. In Bristol, 24.1% of voters turned out to vote.

Results of Mayoral Referendums

Yes' votes are those in favour of a directly elected mayor

	Result	Yes	No	% Yes	% No	% Turnout	Electorate
