

Council Tax 2009/10

Standard Note: SN/SG/5026
Last updated: 5 May 2009
Author: Gavin Berman
Section: Social and General Statistics

This note contains key statistics on council tax levels in 2009/10 and a limited amount of analysis is provided. The main purpose of this note is to act as a reference document although more detailed analysis is available on request.

On the 26 March 2009 the Department for Communities and Local Government (DCLG) released a comprehensive list of the levels of council tax charged by each local authority in England for 2009/10.

The Welsh Assembly Government had released similar information for Wales the previous day. The Scottish Executive published its council tax data soon after.

Further information is available in the following publications:

[Council Taxes in England, 2009-10](#) DCLG Statistical Release, 26 March 2009
[Council Tax Levels in Wales: 2009-10](#) NAW SDR 41/2009, 25 March 2009
[Council Tax Data and Publications](#) Scottish Executive Website

This information is provided to Members of Parliament in support of their parliamentary duties and is not intended to address the specific circumstances of any particular individual. It should not be relied upon as being up to date; the law or policies may have changed since it was last updated; and it should not be relied upon as legal or professional advice or as a substitute for it. A suitably qualified professional should be consulted if specific advice or information is required.

This information is provided subject to [our general terms and conditions](#) which are available online or may be provided on request in hard copy. Authors are available to discuss the content of this briefing with Members and their staff, but not with the general public.

1 Introduction

The council tax was introduced as the primary source of collecting income from local residents by local authorities in England, Wales and Scotland in April 1993. This system replaced the Community Charge, which had in turn replaced Domestic Rating in April 1990.

There are 380 billing authorities in Great Britain responsible for collecting council tax to meet their own demands and the precepts levied by the lower tier Parish or Community Councils and higher tier County Councils, Joint Boards, Police and Fire Authorities.

The number of billing authorities in 2009/10 is lower than the 408 in 2008/09 due to the reorganisation of local authorities. Nine new unitary authorities were established for 2009/10 replacing seven county and councils and 37 shire districts. A unitary authority was established for each of the five counties of Cornwall, Durham, Northumberland, Shropshire and Wiltshire, while two unitary authorities replaced the existing councils in Cheshire and two replaced those in Bedfordshire.

Further information is available in the following Library note [Local government restructuring, SN/PC/3957](#).

Under Part 4 of the Local Government (Structural Changes) (Finance) Regulations 2008¹ the new authorities were given the flexibility to set separate basic amounts of council tax in each of their predecessor areas (shire districts), under the following conditions:

- the unitary authority must ensure that the Band D amount is the same across the whole of its area no later than 1 April 2014.
- for each financial year, the difference between the highest Band D amount levied and the other levies in the area, must be less than the difference in the previous year;
- once an area's Band D amount equals that of the highest amount, no further divergence is allowed.

Central Bedfordshire, Shropshire and Wiltshire authorities decided to set the basic amount of council tax under Part 4 of the regulations, so as to equalise its council tax for all predecessor areas over more than one year.

The following table shows the property price range of each council tax band and the total number of chargeable dwellings in each band. There are eight valuation bands in England and Scotland and nine in Wales. Band I was introduced in Wales in April 2005 following the revaluation of domestic properties.

www.statswales.wales.gov.uk

Local authorities set council tax levels by dividing the amount of money they aim to raise by the Band D equivalent taxbase. The taxbase is calculated by weighting the number of dwellings in each band by the ratio to Band D. The bills in each band are calculated according to a set ratio to band D.²

The average Band D level of council tax is usually used for comparisons of tax levels set. It is, according to the DCLG, a definition that is widely regarded as a benchmark when comparing council tax levels in different areas or over time.³ It compares the level of tax paid by households in similarly valued properties.

As only a minority of properties in each local authority are in Band D, 15% in England, this measure does not show the average amounts of council tax payable by people in different areas. Figures showing the average council tax per dwelling in each LA are also published.

In different local authority areas the mix of dwellings may be significantly different to the national average giving rise to overall average bills which may vary considerably from the band D average. For example in Nottingham, where 92% of all chargeable dwellings were valued in bands A to C, the average band D bill was £1,515 compared with the average per dwelling of £961.

In general the council tax levels in this note include, where appropriate, the average of all the parish precepts levied across the entire area. In areas where parish precepts are levied the council tax levels are therefore not necessarily the actual levels that a household in that area will be billed.

² The ratios of other bands to Band D are: A 6/9; B 7/9; C 8/9; E 11/9; F 13/9; G 15/9; H 18/9, I 21/9

³ Glossary, *Council Taxes in England 2008/09*, DCLG Statistical Release

2 The national picture

2.1 England

The average council tax bill in England per dwelling was £1,175 in 2009/10 compared with £1,145 in 2008/09, an increase of 2.6%. Average council tax per dwelling was significantly less than the average for a band D dwelling as two-thirds of dwellings were in bands A-C. The average for a band D household was £1,414, compared with £1,374 in 2008/09, an average increase in council tax of 2.9%.

Average Band D Council Tax, England, £

Average band D council taxes were £1,308 in London, £1,372 in other English metropolitan areas and £1,453 in English shire areas.

Council Tax Demands and Precepts Statistics, CIPFA

The average band D council tax in the North East (£1,479) was higher than in any other Government Office Region (GOR), while London had the lowest average Band D rate (£1,308). The average council tax per dwelling varied from £1,346 in the South East to £1,027 in Yorkshire and Humber. The following chart shows the average Band D and per dwelling council tax figures for each English GOR.

The following table shows the average Band D tax level by political control of authority. Political control is defined as a party having a majority of councillors after the local elections held in May 2008. In practice a party may control the LA with less than half of the councillors, as members from other parties may vote with the largest party. However for these purposes an authority where the largest party doesn't have a majority of councillors is considered to be under No Overall Control (NOC).

Average Band D council tax¹, 2009/10, by LA political control, England, £

	Conservative	Labour	Lib Dem	NOC	Other

Notes:

1 Excluding Police, Fire and GLA precepts

2 Includes only those authorities in existence before April 2009

Italicised data indicates an average calculated from fewer than five LAs

Sources: www.communities.gov.uk & Local Government Association

Due to the fact that some averages have been calculated from very few observations it is hard to draw firm conclusions, however the figures suggest:

- Amongst metropolitan districts, bills were highest in the average Lib Dem LA and lowest in NOC ones. The largest annual percentage increases occurred in the average Conservative LA.
- Average council tax bills in London were highest amongst Lib Dem LAs and lowest in Conservative run councils.
- The average Lib Dem controlled council set the highest bills for unitary authorities. Similar levels were set by councils under Conservative, Labour and NOC.
- Shire district bills were highest in Labour controlled areas and lowest in 'Other' controlled LAs.
- Average county council precepts were highest in NOC and lowest in Lib Dem and Conservative controlled councils.

The next table shows the average tax level per dwelling by political control of authority. In general terms Labour controlled LAs have lower bills per dwelling than those controlled by other parties.

Average council tax per dwelling¹, 2009/10, by LA political control, England, £

Notes:

1 Excluding Police, Fire and GLA precepts

2 Includes only those authorities in existence before April 2009

Italicised data indicates an average calculated from fewer than five LAs

Sources: www.communities.gov.uk & Local Government Association

- Amongst metropolitan districts, bills were lowest in the average Labour LA, with the average Lib Dem and Conservative LAs charging the highest levels.
- Average council tax bills in London were highest amongst Lib Dem LAs and lowest in Labour run councils.
- The average Conservative controlled council set the highest bills for unitary authorities while the lowest were set by Lib Dem run UAs.
- Shire district bills were slightly higher in Conservative and Lib Dem controlled areas than in districts controlled by other parties.
- Average county council precepts were highest in Conservative and lowest in Labour controlled councils.

2.2 Wales

The 2005/06 council tax bills in Wales were the first to be issued since the revaluation of Welsh domestic properties by the Valuation Office Agency. The revised list of valuations came into force on 1 April 2005.

The issue of council tax revaluation in Wales is discussed in the Library note [Council tax revaluation in Scotland and Wales](#) (SN/PC/3659). The note includes reaction to the revaluation and an evaluation of its effects.

In Wales the average band D council tax for 2009/10 was £1,086. This included £918 for local services (county and community council precepts) and £168 for police authorities. The increase in average band D council tax was 4.1%. This was the third lowest increase in Welsh band D council tax since the start of the system in 1993/94. The increases in 2005/06 and 2008/09 were lower.

Average Band D Council Tax, Wales, £

Pembrokeshire authority billed the lowest band D council tax in 2008/09 (£864), this was followed by Newport (£921). The highest council tax was charged in Blaenau Gwent (£1,325) with Neath Port Talbot (£1,292) the next highest.

2.3 Scotland

Council tax levels in Scotland were frozen by all of the 32 councils in 2009/10.

In four local authority areas council tax levels have been unchanged since 2006/07: Angus, Midlothian, Dundee and Glasgow. In Glasgow council tax levels have not been changed since 2005/06.

The chart below shows the average level of band D council tax in Scotland in each year since the introduction of the system in 1993/94. The average band D council tax bill in Scotland was £1,149 in 2009/10 and the average per dwelling £987.

Average band D Council Tax, Scotland, £

The highest level of band D council tax was charged in Aberdeen (£1,230) and the lowest billing authority was Eilean Siar (£1,024).

3 The local picture in Great Britain

The following table shows the 20 billing authorities with the highest levels of average band D council tax in 2009/10. These are the levels billed by the authorities and include all precepts. Only six of the high-billing authorities were single-tier authorities with the remaining 14 two-tier shire authorities.

Rutland, (Conservative controlled unitary) had the highest levels of average band D council tax. Of these twenty billing authorities six were Conservative controlled, five were under Labour control, three were Lib Dem and the remaining six had no overall control or were controlled by councillors with no links to the main political parties.

Six of the billing authorities in the list below are districts in Labour controlled Nottinghamshire county council. The combined county council and fire authority precepts in Nottinghamshire were the highest amongst English shire counties.

Billing authority ranked by average Band D council tax, 2009/10

The following table shows those billing authorities with the lowest levels of average band D council tax in 2009/10. These are the levels charged by the billing authorities and include all precepts.

Wandsworth and Westminster (both Con) had the lowest levels of average band D council tax. Of these twenty authorities, all single-tier, 11 were Welsh and six Scottish unitary authorities. Three of the authorities were Conservative controlled and 13 had no overall control. The remaining four authorities were represented by councillors not affiliated to a mainstream political party.

The table below shows those billing authorities that had the highest increases in average band D council tax between 2008/09 and 2009/10.

The Conservative controlled metropolitan districts of Trafford and Bury have seen the highest increases in average council tax levels. Of the 20 authorities where council tax levels have increased the most, nine were Conservative controlled, five had NOC, three were Labour controlled and one was under Lib Dem control. The Isles of Scilly is represented by councillors that had no political affiliation.

The following table shows those English and Welsh billing authorities that had the lowest increases in average band D council tax between 2008/09 and 2009/10. The Scottish authorities have been excluded from this table as all 32 froze their council tax at 2008/09 levels.

Council tax bills in Conservative controlled Hammersmith & Fulham fell by 2.2% and the level was unchanged in 11 other London boroughs (five Labour, three Conservative and 3 NOC). London boroughs dominate the list below as the GLA precept has been frozen at the 2008/09 level.

4 Capping

Capping is a mechanism by which the Government may limit the budgets of councils and other local authorities (i.e. police authorities and fire and civil defence authorities). It works in most cases by specifying a maximum increase for an authority's budget where the authority is spending above the level specified by the Government. It does not simply specify a maximum increase or level of council tax, and where an authority is spending below its standard budget, a larger increase in council tax may be possible within the capping limits.

The Government can designate an authority – applying to the current year's budget – or nominate an authority for the following year.

Authorities that have been 'designated' for capping action are given a statutory period of 21 days to respond. The Government will then consider in the light of their responses whether to, for each authority:

- Confirm the designation and set a cap for 2009-10; and if so at what level.
- Withdraw the 'designation' and 'nominate' the authority instead; taking action either to cap them in advance for the following year (designation after nomination) or set a notional budget for the current year which restricts the scope for future increases.

In 2004/05 capping action was taken against fourteen authorities of whom six were designated and eight nominated. In 2005/06 action was taken against nine authorities and in 2006/07 against two authorities, all of whom were designated. The Government did not exercise its capping power in 2007/08. In 2008/09 capping action was taken against eight precepting authorities; one was designated, three designated after nomination and four nominated.

The criteria used to decide which councils might be capped are the responsibility of the Secretary of State under the Local Government Act 1999.

The capping principles for 2009/10 were announced by the Minister for Local Government in a statement to the House on 26 March 2009.⁴ An authorities' 2009-10 budget requirement was deemed excessive if they set:

- a budget requirement increase of more than 4% between 2008/09 and 2009/10;
- and also; a Band D council tax increase of more than 5% over the same period.

In 2008/09 four local authorities were nominated and set notional budget requirements, for these authorities the 2009/10 capping principles relate to the change from the notional budget requirement, and a related notional amount of council tax calculated for that year.

Of the 458 precepting authorities in England subject to capping legislation 58 breached the budget requirement limit, four breached the council tax limit, of which two, Derbyshire and Surrey police authorities breached both. Greater Manchester police (7.5%) and Merseyside police (5.003%) breached the council tax limit but did not breach the budget requirement limit (3.9% and 2.8% respectively):

Derbyshire police authority has increased its budget requirement by 4.99 per cent. and its council tax precept by 8.68 per cent. Surrey police authority has increased its

⁴ HC Deb 26 March 2009 c464

budget requirement by 4.82 per cent. and its council tax precept by 7.07 per cent. compared with the notional levels set last year. I am disappointed that Surrey has set an excessive increase for a second successive year. This is the first time under current legislation that we have had to take action against an authority more than once.

Let me make it clear to the House that I am not announcing a cap on the council tax of Derbyshire and Surrey police authorities. I am starting a process that could lead to that. The authorities have a right under the legislation to challenge the proposed cap and to seek to justify their decisions. We will consider carefully all the representations the authorities may make before reaching any final decisions. Today I am writing to the chairs of the two police authorities confirming that I and my hon. Friend the Minister for Security, Counter-Terrorism, Crime and Policing will meet them personally to hear their case in person. After that, when we have considered any case made by the authorities, we can proceed either to designate—or cap—the authority for 2009-10, either at the level proposed today or at another level, or to nominate an authority, which means either capping the authority for next year, 2010-11, or setting a notional budget requirement for 2009-10 as the baseline for any future capping decisions.

Confirming a cap for this year would require the authority to re-bill residents for a lower council tax, with the cost falling on the capped authority. All authorities set their budget requirements and council tax in the full knowledge that excessive increases could lead to re-billing, so they can have no complaints about this.⁵

Further detail on capping in recent years can be found in the attached Library note [Council tax capping \(SN/PC/4628\)](#).

⁵ HC Deb 26 March 2009 c464

5 Appended tables

Appendix 1 shows average Band D equivalent council tax in England, broken down between the taxes charged to meet an individual authorities own demands, including parish precepts, and the precepts levied by higher tier County Councils, Police and Fire Authorities where appropriate.

Appendix 2 shows the average council tax for a dwelling occupied by two adults in each area, for each band in England. The final column shows the average council tax per dwelling for the area.

Appendix 3 shows average Band D equivalent Council Tax in Wales, broken down between the taxes charged to meet individual authorities own demands and the precepts levied by Police Authorities. Also shown is the average council tax per dwelling for the area and change from the previous year.

Appendix 4 provides historical information on the average Band D council tax levels of each billing local authority in England. Appended tables 5 and 6 provide similar information for Wales and Scotland.
